

## environmental sustainability policy statement

Store Design (SDSF Limited) understands that its activities have both direct and indirect environmental impacts and sees the protection of the environment as an integral part of good practice.

The Company is therefore committed to improving its environmental sustainability performance for the benefit of the people who work in the company, and for our customers and suppliers now and in the future.

To support these aspirations, Store Design is committed to;

- Developing an environmental management system to effectively manage its environmental impacts
- Continually improving its environmental performance through the effective implementation of environmental improvement initiatives
- Reducing, and where possible preventing, pollution through the effective and efficient use of resources
- Complying with all relevant environmental legislation and other environmental requirements
- Communicating this Policy effectively to our employees, suppliers and customers.

Specifically, Store Design will focus its efforts on the following;

- Developing and maintaining an effective strategy for carbon emissions reduction
- Further developing environmental sustainability related research activities and promoting education for sustainable development
- Engaging its staff in initiatives to minimize environmental impact
- Ensuring that improvements to its premises are undertaken in a sustainable manner
- Improving energy efficiency and water conservation
- Improving waste management practices to minimize waste generation and maximize the recycling and recovery of waste which is generated
- Sourcing and procuring, where feasible, more environmentally friendly goods and services
- Managing its estate area to minimize impacts on biodiversity
- Encouraging sustainable travel amongst staff and visitors
